Search Notes

Dear Kurt,

Please find below an inventor search in the bibliographic and full-text foreign patent files, as well as keyword searches in the patent and non-patent literature files, both bibliographic and full text.
In addition to searching on Dialog, I also searched Google.com, EPO/JPO/Derwent, and EricFacility.net.
This search yielded precious few references, and none of them warranted a "tagging" to bring it to your attention. Most of what my search strategy churned up were about driver education or field trips or instructions on how to assemble a vehicle—certainly not the kind of reference you need in this case.
Good Luck!
-and, as always-
Please contact me if I can refocus or expand any aspect of this case.

Sincerely,
Emory Damron
